	By Facility:	
	Abortion Center	Physician Office
Weeks Gestation (LMP)		
1 st Trimester (12 weeks or less)	4,810	17,836
2 nd Trimester (13-24 weeks)	610	2,586
3 rd Trimester (25-28 weeks)	2	20
3 rd Trimester (28 weeks or more)	<u>2</u>	<u>9</u>
	<u>5,424</u>	<u>20,451</u>

Michigan Hospitals and their satellite clinics performed 52 abortions (most were 2nd Trimester)

There are 6 abortion centers in Oakland County (2 in Southfield, 1 each in Bingham Farms, Bloomfield Twp, West Bloomfield, Waterford)

There are 3 abortion centers in neighboring Sterling Heights.

Procedure of choice by Michigan abortionists is Suction Curettage.

They used vacuum to rip apart 85% of the aborted babies.

Most of the remainder were dismembered by forceps.

They used suction curettage in over 70% of the late term abortions (25+ weeks gestation).

In 2008, **33 babies who could have survived outside the womb** (post-viable) were brutally mutilated to death by Michigan physicians (most in private offices).
